SUMMARY

Senior Software Engineer with over 7 years of experience in full-stack development. I specialize in **React**, **Node** and **Next.js**. I also have experience using tools like **Express.js**, **MongoDB**, **MySQL** and styling libraries like **Tailwind** and **Material UI**.

EXPERIENCE

Front-End Engineer

Clouddevs

April 2024 - Present, Remote

- I am part of a talented pool of developers, leveraging my expertise in modern front-end technologies, including **TypeScript**, **React**, **Next.js**, and **Tailwind CSS**, to deliver high-quality web solutions. Continuously enhancing my skills while engaging with dynamic projects, I contribute to creating responsive, scalable, and user-friendly interfaces for a variety of potential clients.

Full-Stack Developer

DOMO, Inc. (via FullStack Labs)

February 2022 - November 2023, Remote

- Led the development of intuitive user interfaces for DOMO's cloud-based data solutions, employing **React.js** and **Typescript**, to facilitate more engaging and accessible data visualization for clients.
- Designed and implemented a robust backend API using **Kotlin** for DOMO, enhancing the platform's data processing capabilities and enabling seamless integration with frontend services for more efficient data management and retrieval.
- Implemented best practices for web accessibility, making over 90% of the application accessible to visually impaired users.
- Adopted and advocated for best practices in code quality, including comprehensive testing with **Jest.js**, to ensure reliability and scalability of the data visualization tools.

Lead Front-End Developer

Launch Consulting Group (via FullStack Labs)

March 2021 - December 2021, Remote

- Spearheaded the front-end team at Launch for Bowlero, utilizing **React**, **Redux**, and **Typescript** to design user interfaces for a key business and data intelligence app, aiming to streamline venue operations.
- Enhanced data visualization for complex operational data, facilitating a venue improvement process that contributed to a 30% improvement in efficiency at Bowlero's numerous locations.
- Employed **Figma** for high-fidelity UI/UX designs, ensuring intuitive navigation and efficient data presentation to facilitate better decision-making across Bowlero's venues.

Software Engineer

FullStack Labs

February 2021 - December 2023, Remote

- Joined FullStack Labs as a Full Time contractor.
- Subcontracted by FullStack Labs to contribute to key projects at DOMO and Launch Consulting Group, leveraging my expertise in **React.js**, **Node.js** and **Typescript**, as well as my general software development skills to drive advancements in both companies' technology solutions.

Freelance Developer

Upwork

February 2019 - February 2021, Remote

- Developed 'Pando,' an interactive community resource map for GroundBreakers, employing **Next.js**, **React**, and **Node.js**, which significantly improved resource accessibility for individuals during the pandemic.
- Led the redesign of eVentures landing site, utilizing **Next.js** and closely adhering to high-fidelity **Figma** designs to significantly enhance the site's user experience and visual appeal.

Java Software Developer

Coding Nomads

February 2018 - February 2019, Remote

- Contributed to the online learning platform by crafting comprehensive tests, aiding in the educational development of future software developers through practical, hands-on learning experiences.

EDUCATION

Bachelor of Computer Systems Engineering

Universidad Iberoamericana · Leon

- Comprehensive IT studies focused on software development, databases and IT project management.

Java & Spring Bootcamp

Coding Nomads · Bali, Indonesia

- Intensive in-site course focused on object-oriented programming, backend development with Java and Spring framework, and building scalable software applications.

SKILLS, TOOLS & INTERESTS

Front-end: HTML, CSS, Typescript, React, Next.js, Redux, Material UI, Figma

Back-end: Kotlin, Java, Node.js, MongoDB, MySQL

Productivity: Agile, Jira, Slack, Microsoft Teams

Interests: Surfing, Kettlebell Training, Calisthenics, Ancient History, Spicy Food
